Painting for me is a Journey of Discovery of myself
 & my Fellow Humans Past & Present As the Great Coach
 Vince Lombardi once said during a football game! What the hell
 is going on here..! I discovered cave art some 30 years ago it
 Astounded me. They were the first impressionists since then its been
 a remarkable learning Curve for me I'm not that smart But what
 I do have is the Gift given to me by God Buda ALA Jahara. Bible Coran
 tchra. etc Jungle Born travel around the world Before I was 7 Had
 malleria at 3 in Papua New Guinea. The gifts of pure thought of common
 sense & love & respect for all that lives it is becoming more
 shamanistic & spiritual the older I get. I really don't care
 about myself & my life. and now I'm going to throw caution
 to the wind. to become a voice in that wind. We have been
 given this beautiful earth filled with the most marvelous diversity
 of life. Yet we humans are slowly & systematically destroying it
 defolating the forests. Elephants have no place to go the big cats
 are almost gone. & the same can be said for Gorillas, Turtles, zebras,
 Buffalo & All the rest that has lived for millions of years. How about
 the OCEANS. 80% to 90% percent of the big fish are gone reefs are
 collapsing water temperatures are rising at alarming rates. poles are
 melting perma frost is melting Global Warming is for
 Real. When is enuf enuf! when its all gone! Then we have
 our religions. I haven't read the holy Bible the holy Coran the holy
 tora. But when ever I do I certainly see more love more grace
 more kindness. more purity of thought for good. than I do evil I'm
 Reading this book Racing toward Armageddon by Michael Baigent. Wow
 Really fundamentalism amongst the christians. the muslims the
 Jews is not the road I and I hope the majority of my
 Beautiful Fellow Humans will be traveling we will fight the end times
 that is the imperial battle of the wrighteous of all religions. Every
 one has a right to peace & prosperity educate yourselves look for
 the Good. in all the wrighting of our Gods. they should all be kept separate
 & with that love in hand help one another find that common ground
 of being Humans. tolerance Common Sense morals Bravery Love Caris
 Fear not Death for it smiles on us all. the children will free all worlds.
